Abstracts

34. Requin J, Riehle A (1993) Continuous transmission of sensorimotor information in the cerebral cortex. Cortical Control of Movement, Italy

80. Riehle A (2002) The dynamical interplay of spike synchronization and spike rate in monkey motor control. "*From Snyaptic to Brain Imaging*", Paris, France
128. Kilavik BE, Confais J, Ponce-Alvarez A, Diesmann M, Riehle A (2010) Motor cortical evoked potentials are sensitive to visuomotor task timing and performance, and are modified by long-term daily practice. AREADNE’10 Research in Encoding And Decoding of Neural Ensembles, Santorini, Greece
129. Grün S, Denker M, Diesmann M, Roux S, Riehle A, Lindén H (2010) Signatures of spiking neuronal assemblies in the local field potential. 9th International Neural Coding Workshop (NC2010), Limassol, Cyprus, pp. 43
137. Brochier T, Wirtssohn S, Riehle A (2011) Spatio-temporal modulations of primary motor cortex activity during grasp in the macaque monkey. 10e Colloque de la Société des Neurosciences, Marseille, France
